# Chief Executive Officer and Financial Director's responsibility statement

The Directors, whose names are stated below, hereby confirm that:

- (a) The Annual Financial Statements, set out on pages 12 to 57, fairly present in all material respects the financial position, financial performance and cash flows of Wesizwe Platinum Limited in terms of IFRS;
- (b) To the best of our knowledge, no facts have been omitted or untrue statement made that would make the Annual Financial Statements false or misleading;
- (c) Internal financial controls have been put in place to ensure that material information relating to Wesizwe Platinum Limited and its consolidated subsidiaries have been provided to effectively prepare the financial statements of Wesizwe Platinum Limited;
- (d) The internal financial controls are adequate and effective and can be relied upon in compiling the Annual Financial Statements, having fulfilled our role and function as Executive Directors with primary responsibility for implementation and execution of controls;
- (e) Where we are not satisfied, we have disclosed to the Audit and Risk Committee and the auditors the deficiencies in design and operational effectiveness of the internal financial controls, and have taken steps to remedy the deficiencies; and
- (f) We are not aware of any fraud involving Directors.

Long Zou

Chief Executive Officer

Jianguo Liu

Financial Director

# **Directors' responsibility and approval** for the year ended 31 December 2023

The Directors are responsible for the preparation and fair presentation of the Group Annual Financial Statements (AFS) and Company AFS of Wesizwe Platinum Limited ("Wesizwe", "the Company" or "Group" depending on context), comprising the statement of financial position as at 31 December 2023, statement of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and the notes to the financial statements which include a summary of material accounting policies and other explanatory notes, in accordance with International Financial Reporting Standards (IFRS), International Financial Reporting Interpretations Committee (IFRIC) interpretations issued and the requirements of the Companies Act, as well as the JSE Listings Requirements. In addition, the Directors are responsible for preparing the Directors' report.

The Directors are also responsible for such internal controls as the Directors determine as necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for maintaining adequate accounting records and an effective system of risk management.

The Directors have made an assessment of the ability of the Company and its subsidiaries to continue as going concerns and have no reason to believe that the businesses will not be going concerns in the year ahead.

The auditor is responsible for reporting on whether the Group AFS and Company AFS are fairly presented in accordance with the applicable financial reporting framework.

## Approval of Group Annual Financial Statements and Company Annual **Financial Statements**

The Group AFS and Company AFS of Wesizwe Platinum Limited, as identified in the first paragraph, were approved by the Board of Directors on 28 March 2024 and signed by:

Dawn Mokhobo Chairperson

Jianguo Liu Financial Director

# Certificate by the Company Secretary for the year ended 31 December 2023

In terms of section 88(2)(e) of the Companies Act, as amended, I certify that the Group has lodged with the Commissioner all such returns as are required of a public company in terms of the Act and that all such returns are true, correct and up to date.

Azeyech Consulting Services Proprietary Limited

Company Secretary

28 March 2024

#### Report of the Audit and Risk Committee

for the year ended 31 December 2023

#### Introduction

The Audit and Risk Committee (the committee) is pleased to present its report in terms of the Companies Act and the JSE Listings Requirements for the financial year ended 31 December 2023. The committee conducted its work in accordance with the written terms of reference as approved by the Board, information about which is recorded in the corporate governance section of the 2023 Integrated Annual Report (2023 IAR).

The committee is an independent statutory committee appointed by the shareholders. The committee executes all statutory duties in terms of section 94 of the Companies Act in addition to those that are delegated by the Board.

#### Composition

The composition of the committee remained unchanged for the period under review and comprised members who have the necessary skills and experience to fulfil the duties of the committee. The committee comprised the following members:

- Victor Mabuza (Independent Non-executive Director and Chair);
- Lincoln Ngculu (Independent Non-executive Director); and
- Dawn Mokhobo (Independent Non-executive Director).

The appointment of all members of the committee is subject to the shareholders' approval at the next Annual General Meeting (AGM) to be held on 31 May 2024. The profiles of the members, including their qualifications, can be viewed in the 2023 IAR.

#### Frequency and attendance of meetings

The committee met eight times during the year.

#### Duties assigned by the Board

The committee has overseen financial and integrated reporting, the effectiveness of the risk management process, and policies and internal controls with reference to the findings of both the internal and external auditors. During the year under review, the committee met with the external auditor without management being present. The committee is satisfied that it has complied with its legal, regulatory and other responsibilities. In delivering this mandate, the committee performed the following key strategic initiatives:

- Considered and recommended the approval of the financial statements by the Board;
- Reviewed and approved trading updates communicated to the market;
- Reviewed and recommended Board approval of the 2023 IAR;
- Reviewed management's assessment of going concern;
- Assessed the suitability of the current audit firm and designated partner, in compliance with the JSE Listings Requirements and considered other relevant legislation;
- Ensured that there is a process for the committee to be informed of any reportable irregularities as defined in the Auditing Profession Act, 2005, identified and reported by the external auditor;
- Recommended and nominated the external auditor for appointment by the shareholders;
- Recommended Board approval of external audit fees and terms of engagement of the external auditor;
- Approved the external audit plan for the financial year and received feedback from the external auditor at the financial year-end meeting;
- Ensured the independence of the internal audit function and that it had the necessary resources, standing and authority
  within the organisation to enable it to fulfil its duties as per the requirements of the King IV Codes and recommended
  practices;
- · Approved the risk-based internal audit plan for the financial year and quarterly internal audit feedback;
- Received and reviewed reports from both internal and external auditors concerning the effectiveness of the internal control environment, systems and processes management;
- Reviewed and assessed the effectiveness and independence of both internal and external auditors and was satisfied with the independence of the audit services rendered; and
- · Reviewed the expertise and qualifications of the Financial Director.

The committee has approved a policy on the use of external auditors for non-audit services. The principle of the policy is to ensure that, on an annual basis, non-audit service fees do not exceed 30% of the Company's audit fees on an aggregated basis and that the committee should pre-approve any non-audit services to be provided by the external auditor. There were no non-audit services rendered during the year.

#### **External auditor**

The committee nominated and recommended the appointment of the external auditor, SizweNtsalubaGobodo Grant Thornton Inc. (SNG Grant Thornton) to the shareholders in compliance with the Companies Act and the JSE Listings Requirements and the appointment of Siyakhula Vilakazi as designated auditor for the 2023 financial year.

The committee has satisfied itself that the audit firm and designated auditor are accredited and appear on the JSE List of Accredited Auditors. The committee further satisfied itself that SNG Grant Thornton was independent of the Company, which includes consideration of compliance with criteria relating to independence proposed by the Independent Regulatory Board for Auditors.

#### Internal auditor

The committee has satisfied itself that the internal auditor, Mazars Advisory Proprietary Limited (Mazars), is independent of the Company, which includes consideration of compliance with criteria relating to the Institute of Internal Auditors and the Independent Regulatory Board for Auditors.

The internal audit plan was approved and Mazars has access to the committee, primarily through its Chair.

#### Internal financial control

Nothing has come to the attention of the committee that caused it to believe that the Company's system of internal controls and risk management is not effective and that the internal financial controls do not form a sound basis for the preparation of reliable financial statements.

#### Expertise of the Financial Director and finance function

In compliance with paragraph 3.84(g)(i) of the JSE Listings Requirements, the committee satisfied itself with the appropriateness of the expertise and experience of the financial management team as a whole. The committee is satisfied with the performance, qualifications, and expertise of the Financial Director.

In compliance with paragraph 3.84(g) (ii) of the JSE Listings Requirements, the committee has satisfied itself that the Company has established appropriate financial reporting procedures and that those procedures are operating This included consideration of all entities included in the consolidated group IFRS financial statements,, ensuring that management had access to all the financial information of Wesizwe Group to allow the effective preparation and report on the consolidated financial statements.

The committee has reviewed the current performance and future requirements for the financial management of the Company and concluded that the current team has the appropriate skills, experience, and expertise required to fulfil the finance function.

#### Going concern

The committee reviewed the documents prepared by management in which they assessed the going concern status of the Company and its subsidiaries at the year-end and the near future. Management had concluded that the Group was a going concern due to the support of the majority shareholder. The committee resolved to recommend acceptance of the conclusion to the Board.

#### Financial statements

The committee has reviewed the AFS of the Group and Company for the year ended 31 December 2023 and is satisfied that they comply with IFRS and the Companies Act. Areas of judgement were discussed to confirm accounting estimates.

#### Risk management

The Board has assigned oversight of the Company's risk management function to the committee. This delegated function comprises strategic and operational risks, which are tabled at each of the Board meetings for discussion. The risk register also acts as a basis on which independent assurance activities are developed.

#### Fraud prevention

A fraud prevention plan has been implemented and an anonymous tip-off line is functional. Monthly reports are provided by the independent service provider. The monitoring of reports from this service is shared between this committee and the Social and Ethics Committee.

# Report of the Audit and Risk Committee continued

for the year ended 31 December 2023

#### Technology governance and information technology (IT)

The committee is responsible for:

- Obtaining independent assurance on the effectiveness of the IT internal controls;
- · Overseeing the value delivery on IT and monitoring the return on investments on significant IT projects; and
- Ensuring that IT forms an integral part of the Company's risk management.

The committee reviewed the effectiveness of the Company information and communications technology (ICT) environment and, given the challenges identified in ICT, the committee placed emphasis on the improvement of IT governance to align the Company practices with the generally accepted standards. This programme will continue in 2024.

#### Recommendation of the Annual Financial Statements for approval by the Board

The committee recommended the Group AFS and Company AFS for approval by the Board.

The committee carried out its work as statutorily required. The committee has considered the JSE's most recent report back on proactive monitoring of financial statements and where necessary those of previous periods. Appropriate action has been taken to respond to these findings when preparing the AFS for the year ended 31 December 2023.

The committee reviewed the Company's strategic risks for the reporting period and felt that the prior period's strategic risks were still the key strategic risks that the Company needed to focus on.

#### Additional focus areas for 2024

- · Mine production management;
- · Materials management review;
- Plant operations;
- · Life of mine planning and monitoring review;
- · Legal and regulatory compliance;
- Revenue management;
- Combined assurance;
- · Planned maintenance of mining equipment;
- Enterprise risk management;
- Technology and IT governance; and
- King IV Code implementation.

Victor Mabuza Chairman

28 March 2024

#### Directors' report

for the year ended 31 December 2023

The Directors have pleasure in submitting their report on the AFS of Wesizwe Platinum Limited and the Group for the year ended 31 December 2023.

#### **Nature of business**

Wesizwe Platinum Limited is a public company incorporated in the Republic of South Africa and its shares are listed on the JSE.

The Group's main strategic project is to build and operate South Africa's next PGMs mine at its Bakubung Minerals Proprietary Limited (Bakubung) operation, also known as BPM, which is owned by Wesizwe, firmly positioning the Group as a significant mid-tier precious metals producer.

There have been no material changes to the nature of the Group's business from the prior year.

#### Review of financial results and activities

The consolidated AFS have been prepared in accordance with IFRS and the requirements of the Companies Act. The accounting policies have been applied consistently compared to the prior year save for the accounting policies that became effective and were adopted in the current year, outlined in the notes to the financial statements.

#### Results of the Group for the year under review

The Group will not earn revenue from mining activities until such time as the BPM is brought into production.

The loss before tax for the year under review was R12.2 million (2022: R79.2 million loss). These results take into account administration expenses amounting to R27.9 million (2022: R62.0 million), finance income amounting to R31.2 million (2022: finance income R33.3 million) and finance expense amounting to R18.7 million (2022: finance expense R50.4 million) as presented in the statement of profit or loss and other comprehensive income.

#### Directorate

#### Directors and changes in Board of Directors

The details of the current Directors are provided in the 2023 IAR.

Mr Sun Pingan resigned as Non-executive Director on 5 July 2023.

Mr Yongxiang Huang was appointed as a Non-executive Director on 7 March 2024. In accordance with clause 5.1.4 of the Company's Memorandum of Incorporation (MOI), directors appointed during the year must be confirmed by shareholders at the AGM following such appointment.

In accordance with clause 5.1.8 of the Company's MOI, one-third of the Non-executive Directors shall retire at each AGM on a rotational basis as determined in the said clause. Retiring directors are eligible for re-election. The Directors retiring and seeking re-election at the AGM are Fugui Qiao and Qing Yu.

#### Directors' remuneration

Refer to the remuneration report in note 30 of the AFS.

#### Directors' interest in contracts

There is a conflict of interest policy in place. Directors are required to inform the Board timeously of conflicts or potential conflicts of interest they may have in relation to particular items of business. Directors are obliged to excuse themselves from discussions or decisions on matters in which they have a conflicting interest.

During the financial year, no material contracts were entered into in which Directors and prescribed officers of the Company had an interest and which significantly affected the business of the Group. The Directors had no interest in any third party or company responsible for managing any of the business activities of the Group.

#### Stated capital

There have been no changes to the authorised or issued share capital during the year under review.

Further details of the authorised and issued stated capital are set out in note 11 to the financial statements.

#### **Special resolutions**

The remuneration payable to Non-executive Directors was approved at the AGM that was held on 31 May 2023 effective until the next AGM, which will be held on 31 May 2024.

The Board of Directors of the Group is to be authorised in terms of section 45(3)9(a)(ii) of the Companies Act, as general approval to authorise the Group to provide any direct or indirect financial assistance to any related or inter-related companies of the Group on the terms and conditions and for the amounts that the Board of Directors may determine.

## Directors' report continued

for the year ended 31 December 2023

#### Events after the reporting period

The Group is in negotiations with the Commission for Conciliation, Mediation and Arbitration (CCMA) regarding Section 189a that will affect the retrenchment of staff members.

Mr Yongxiang Huang was appointed as a Non-executive Director on 7 March 2024.

#### Funding and going concern

#### **Funding of BPM**

The project funding of US\$650 million from China Development Bank (CDB), which Jinchuan Group Limited (Jinchuan) and China-Africa Development Fund (CAD) undertook to secure in terms of the subscription agreement, was finalised and the facility agreement was signed in December 2013. The term of this loan is 15 years from the date of the first drawdown, i.e. from January 2014. Capital repayments in "six monthly instalments" only commence after six years from the date of the first drawdown. The instalments commence as relatively small amounts, being 0.077% of the outstanding balance at the payment date of the first instalment, which increases with every consecutive repayment to a pre-final instalment of 8.5% of the outstanding balance on the payment date of the second last instalment. The final instalment will be equal to the balance outstanding on the final payment date. The variable interest rate is determined every six months, in advance, at the then ruling "six-month LIBOR rate" plus 3.5%. This project funding facility is exclusively available for the purposes of developing the BPM.

As at 31 December 2020, the full facility of US\$650 million had been drawdown.

The Board is currently considering future funding options; such options will be a function of market conditions closer to the target date and additional funding requirements. In order to address shortfall funding, management has acquired the full commitment from the majority shareholder.

#### Going concern

The Group's cash resources at the reporting date of R227.9 million (2022: R342.6 million) are not sufficient, based on current budgets, to conduct operations and complete the development of the BPM Project. The Group's current liabilities at the reporting date, which include shareholder's loans of R3 017.4 million (2022: R5 634.3 million), exceed the current assets by R3.5 billion (2022: R5.6 billion).

These conditions indicate that a material uncertainty exists, which may cast significant doubt as to the ability of the Company and its subsidiaries to continue as a going concern in that they may be unable to realise their assets and discharge their liabilities in the normal course of business.

The ability of the Group and Company to continue as a going concern is dependent on the support of the majority shareholder and the majority shareholder not calling on the current shareholder's loans. The shareholder has supported the shortfall to date and has provided a letter of comfort supporting any shortfall and guaranteed repayment of the CDB loan going forward.

Based on the above, the Directors have concluded that it is appropriate to prepare the financial statements on a going concern basis.

#### **Auditors**

SNG Grant Thornton continued in office as auditors for the Company and its subsidiaries for 2023.

The shareholders will be requested to reappoint SNG Grant Thornton as the independent external auditor of the Group and to confirm Mr Siyakhula Vilakazi as the designated lead audit partner for the 2024 financial year at the AGM.

#### **Company Secretary**

The Company Secretary is Azeyech Consulting Services Proprietary Limited.

#### **Annual General Meeting**

The notice convening the AGM to be held on 31 May 2024, together with a shareholder proxy form and the notes explaining the various resolutions to be considered at that meeting, is enclosed within the 2023 IAR.

#### **Approval of Annual Financial Statements**

The AFS set out on pages 12 to 57, which have been prepared on the going concern basis, were approved by the Board of Directors on 28 March 2024.

Dawn Mokhobo Chairperson

hollops

28 March 2024

#### Independent auditor's report

for the year ended 31 December 2023

# To the Shareholders of Wesizwe Platinum Limited Report on the audit of the consolidated and separate financial statements

#### Opinion

We have audited the consolidated and separate financial statements of Wesizwe Platinum Limited and its subsidiaries (the group) and separate financial statements (the company) set out on pages 12 to 57, which comprise the Consolidated and Company statements of financial position as at 31 December 2023, and the Consolidated and Company statements of profit or loss and other comprehensive income, the Consolidated and Company statements of changes in equity and the Consolidated and Company statements of cash flows for the year then ended, and notes to the Consolidated and Company financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of Wesizwe Platinum Limited as at 31 December 2023, and its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the Group in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material uncertainty related to going concern

We draw attention to Note 35 in the consolidated and separate financial statements, which indicates that the group's current liabilities exceeded current assets by R3.5 billion. As stated in Note 35, these events or conditions, along with other matters as set forth in Note 35, indicate that a material uncertainty exists that may cast significant doubt on the Group and Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Independent auditor's report

for the year ended 31 December 2023

This key audit matter is applicable to the consolidated financial statements

#### Key audit matter

# Included in the Property, plant and equipment is mine development assets amounting to R18 681 million, relating to the Company's subsidiary, Bakubung Minerals (Pty) Ltd. These assets relate to the Bakubung Platinum Mine (BPM) project which was still under construction at reporting date, and management applied significant judgement in determining whether these assets are impaired. Management uses a discounted cash flow model to determine the recoverable amounts, which is complex and certain key inputs, specifically commodity price and foreign exchange rate forecasts are subject to volatility. Due to the significant judgment applied by management, the valuation of the mine development assets is considered a key audit matter.

#### Audit procedures performed

Our audit procedures included, among others:

- We tested the mathematical accuracy of the discounted cash flow model. We also considered the appropriateness of the model applied by management by comparing it with market practice and through enquiry with our experts.
- We evaluated the cash flows used in the discounted cash flow model by focusing on changes since the previous reporting period to corroborate key capital investments and operational construction costs with reference to the project plan approved by the directors of the Company.
- We tested reasonability of the discount rate applied by the Group in the finance model. Critically evaluated key inputs used in the model for reasonableness by reference to external data including a basket of third-party commodity price and foreign exchange rate forecasts.
- We evaluated whether the Group's disclosures around the sensitivity of the outcome of the impairment assessment to changes in key assumptions reflected the risks inherent in the valuation of the mine development assets.

This key audit matter is applicable to the separate financial statements

#### Key audit matter

The Company's investment in subsidiaries, loans and receivables from subsidiaries are of most significance when coming to the presentation of the Company's total assets as at 31 December 2023.

The Company's main subsidiary is Bakubung Minerals (Pty) Ltd. Due to the impairment indicators relating to the mine development assets of Bakubung Minerals (Pty) Ltd, management have applied significant judgement in their impairment testing of the investment in subsidiaries and loans and receivables at year end.

#### Audit procedures performed

Our audit procedures included, among others:

- We evaluated the recoverable amounts of the investment in subsidiaries and the loans receivable from subsidiaries with reference to the net asset value of each subsidiary using the fair value of their assets less the fair value of their liabilities.
- We assessed the reasonability of the Expected Credit Losses assessment methodology and calculation and recalculated the impairment loss.

#### Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Wesizwe Platinum Limited Annual Financial Statements", for the year ended 31 December 2023, which includes the Directors' Report, the Audit and Risk Committee's Report, the Company Secretary's Certificate as required by the Companies Act of South Africa. The other information does not include the consolidated or the separate financial statements and our auditor's reports thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the directors for the consolidated and separate Financial Statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and/or the Company or to cease operations, or have no realistic alternative but to do so.

10

# Auditor's Responsibilities for the Audit of the consolidated and separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and
  appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher
  than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
  override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control:
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors;
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and / or the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on other legal and regulatory requirements

In terms of the IRBA Rule published in Government Gazette Number 39475 dated 4 December 2015, we report that SNG Grant Thornton Inc. has been the auditor of Wesizwe Platinum Limited for 6 years.

#### Notes to the financial statements

for the year ended 31 December 2023

#### Reporting entity

Wesizwe is a company domiciled in the Republic of South Africa. The Group AFS on 31 December 2023 comprise the Company and its subsidiaries (together referred to as "the Group"). The ordinary shares of the Company are listed on the JSE. Wesizwe, through its wholly owned subsidiary Bakubung, is engaged in the development of its mine, located on the western limb of the Bushveld Complex.

#### Basis of preparation of financial results

#### Statement of compliance

The Group AFS and Company AFS are prepared in accordance with IFRS, IFRIC interpretations issued, the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council and the requirements of the Companies Act as well as the JSE Listings Requirements.

#### Going concern

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. Refer to note 35

#### Basis of measurement

The Group AFS and Company AFS for the year ended 31 December 2023 have been prepared on the historical cost basis, unless otherwise stated.

#### Functional and presentation currency

These financial statements are presented in South African rand (ZAR), which is the Group's functional currency. Unless specified otherwise, all information presented in ZAR has been rounded to the nearest thousand. Management has determined the functional currency to be South African rand. Although borrowings are in US dollars, the amounts are converted into South African rand and all major operating costs are rand-denominated. Management will reassess the functional currency once trading of resources commences as sales prices of minerals are influenced by foreign currencies.

Transactions in foreign currencies are initially recorded in the functional currency at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the spot rate of exchange ruling at the reporting date. All differences are recognised in the consolidated statement of profit or loss and other comprehensive income except for:

Exchange differences on foreign currency borrowings relating to assets under construction for future production use, which
are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency
borrowings

#### Use of estimates and judgements

The preparation of financial statements in terms of IFRS requires management to use estimates and assumptions that may materially affect the reported amounts of assets and liabilities, as well as income and expenses. These estimates and judgements are based on historical experience, current and expected future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

Information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in note 3: Judgements by Directors and management.

#### 1. Material accounting policies

The principal accounting policies applied in the preparation of these AFS are set out below.

#### 1.1 Basis of consolidation

The Group AFS consolidate those of Wesizwe and all of its subsidiaries as at 31 December 2023. All subsidiaries have a reporting date of 31 December.

#### (i) Subsidiaries

Subsidiaries are entities controlled by Wesizwe. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the Group AFS from the date on which control commences until the date on which control ceases.

Subsidiaries are measured at cost, less any accumulated impairment losses, in the AFS of the Company.

#### (ii) Transactions eliminated on consolidation

Intra-Group balances and transactions, and any unrealised gains and losses arising from intra-Group transactions, are eliminated on consolidation.

#### 1.2 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. No segment reporting has been produced as the Group is conducting construction activities in one geological location, which represents its only business activity, with no revenue generated as yet.

#### 1.3 Stated capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any tax effects.

#### 1.4 Property, plant and equipment

Property, plant and equipment are initially measured at cost. The Group recognises in the carrying amount of property, plant and equipment, the cost of replacing part of an item when that cost is incurred if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Capitalised expenditure includes costs directly related to exploration and evaluation activities, including materials and fuel used, surveying costs, drilling costs and payments made to contractors. General and administrative costs are capitalised as an asset only to the extent that those costs can be related directly to operational activities. Exploration and evaluation expenditure that has been capitalised has been reclassified to property, plant and equipment, as the technical feasibility and commercial viability of extracting a mineral resource is demonstrable. Development expenditure incurred by or on behalf of the Group comprises costs directly attributable to the construction of a mine, related infrastructure and capitalised borrowings. No depreciation is recognised in respect of development assets. Development assets are recognised at cost and are assessed for impairment if facts and circumstances indicate that an impairment may exist. Refer to

Subsequently, it is measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation methods and useful lives, as well as residual values, are reviewed annually and adjusted if appropriate. The recognition of costs in the carrying amount of an asset ceases when the item is in the location and condition necessary to operate as intended by management.

#### Notes to the financial statements continued

for the year ended 31 December 2023

#### 1. Material accounting policies continued

#### 1.4 Property, plant and equipment continued

Depreciation is provided over the estimated useful lives of the assets at the following rates:

Item	Depreciation method	Depreciation rate per annum
Buildings	Straight line	4.00%
Land	Not depreciated	
Furniture and fittings	Straight line	20.00%
Vehicles	Straight line	20.00%
Office equipment	Straight line	20.00%
Computer equipment	Straight line	33.33%
Technical equipment	Straight line	20.00%
Other office fittings	Straight line	25.00%
Right-of-use assets (ROU)	Period of the lease	
Plant and equipment*	Unit of production	
Mine development assets*	Unit of production	
Mining rights*	Unit of production	

<sup>\*</sup> Depreciated using the units-of-production method based on the estimated proved and probable mineral reserves

No significant components have been identified for the asset categories above. Profit or loss on disposal is recognised in profit or loss and is calculated as the difference between the proceeds and the carrying value.

#### 1.5 Financial instruments

#### Classification

The Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value through other comprehensive income (FVOCI); and
- Those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows. The Group reclassifies debt investments when and only when its business model for managing those assets changes.

The Group classifies financial liabilities at amortised cost.

#### Measurement

At initial recognition, the Group measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

At initial recognition, the Group measures interest-bearing borrowings, shareholder's loans and loans from subsidiaries at fair value less transaction costs, if any.

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. Assets that are held for the collection of contractual cash flows where those cash flows represent payments of principal and interest solely are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/losses together with foreign exchange gains and losses. Impairment losses are presented as a separate line item in the statement of profit or loss and other comprehensive income.

The Group subsequently measures all equity investments at fair value. For FVOCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

The Group subsequently measures interest-bearing borrowings, shareholder's loans and loans from subsidiaries at amortised cost using the effective interest method.

#### 1. Material accounting policies continued

#### 1.5 Financial instruments continued

#### Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

#### Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Group considers a broader range of information when assessing credit risk and measuring ECLs, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- Financial assets that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk (Stage 1);
- Financial assets that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low (Stage 2); and
- Financial assets that have objective evidence of impairment at the reporting date (Stage 3).

"Twelve-month ECLs" are recognised for the first category while "lifetime ECLs" are recognised for the second and third categories.

Measurement of the ECLs is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument. Refer to note 33.

#### Offsetting

Financial assets and financial liabilities are only offset if there is a legally enforceable right to set off the recognised amounts and there is an intention to either settle on a net basis or to realise the asset and settle the liability simultaneously.

#### 1.6 Impairment of non-financial assets

The Group assesses at each reporting date whether there is objective evidence that a non-financial asset is impaired. A non-financial asset is impaired if there is objective evidence of impairment as a result of a loss event that occurred after the initial recognition of the asset, and that loss event has an impact on the estimated future cash flows of the asset that can be reliably estimated.

#### (i) Property, plant and equipment

At each reporting date, the Group reviews the carrying amount of its property, plant and equipment to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the assets is estimated to determine the extent of the impairment (if any). Where the asset does not generate cash flows that are independent of other assets, the Group estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs.

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets for which estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. Impairment losses are recognised in profit or loss.

#### Notes to the financial statements continued

for the year ended 31 December 2023

#### 1. Material accounting policies continued

#### 1.7 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, for which it is probable that an outflow of resources will occur and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of the provision is discounted to its present value using a pre-tax rate that reflects the current market assessments of the time value of money and the risk specifics of the liability.

#### (i) Mine closure and environmental rehabilitation obligation

This long-term provision results from environmental disturbances associated with the Group's mining operations. This cost will arise from rectifying damage caused during the construction of the mine. Estimated long-term environmental and decommissioning obligations, comprising pollution control, rehabilitation and mine closure are based on the Group environmental management plans, in compliance with current environmental and regulatory requirements.

Provision is made for the present value of the decommissioning and environmental cost at the end of the mine's life. The estimates are discounted at a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the decommissioning and environmental provision due to the passage of time is recognised as a finance expense in profit or loss. The increase or decrease due to an additional environmental disturbance is recognised in property, plant and equipment.

#### 1.8 Income tax

Income tax comprises current and deferred tax.

#### (i) Current taxation

Current taxation comprises taxation payable or recoverable, calculated on the basis of the expected taxable profit or loss for the year, using the tax rates enacted or substantively enacted at the reporting date, and any adjustments of tax payable for previous periods. Current tax is recognised in profit or loss, or items recognised directly in equity or in other comprehensive income. The current tax rate is 27%.

#### (ii) Deferred taxation

Deferred taxation is provided at enacted or substantively enacted rates on all temporary differences between carrying amounts for financial reporting purposes and the carrying amounts for taxation purposes. Full provision is made for all temporary differences between the tax base of an asset or liability and its carrying amount.

Deferred tax assets are not recognised unless it is probable that future taxable profits will be available in the foreseeable future against which the associated unused tax losses and deductible temporary differences can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred income tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and when they relate to income taxes levied by the same taxation authority and taxable entity. In providing for deferred taxation, the Group takes into account any unredeemed capital expenditure on the development of the mine. The unredeemed capital expenditure may be set off against future taxable income and treatment permissible per the Income Tax Act.

#### 1.9 Finance income and finance expenses

#### Finance income

Finance income consists of interest income, which is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable.

#### Finance expenses

Finance expenses consist of interest expense, which is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable as well as the unwinding discount on the provisions.

#### 1. Material accounting policies continued

#### 1.10 Inventories

Inventory comprises Run of Mine (ROM) and stores and materials.

#### (i) ROM inventories

Costs incurred in the production process are appropriately accumulated as stockpiles. The average cost of normal production includes total costs incurred on mining. Stockpiles are measured by estimating the stockpiled tonnes, the number of contained 4E ounces based on assay data. Stockpile tonnages are also verified by periodic surveys.

#### (ii) Stores and materials

Stores and materials are valued at the lower of cost or net realisable value, on a weighted average basis. Obsolete, redundant and slow-moving stores are identified and written down to net realisable value, which is the estimated selling price in the ordinary course of business, less selling expenses.

#### 1.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use or sale) are capitalised as part of the cost of that asset. All other borrowing costs are expensed in the period they occur. The Group has elected to capitalise foreign exchange losses that are directly attributable to borrowing costs incurred for the acquisition, construction or production of a qualifying asset.

Foreign exchange differences have been included in the capitalised borrowing costs to the extent that they represent an adjustment to the interest rate. Therefore, foreign exchange differences to be capitalised should be restricted to such that total capitalised borrowing costs are in the range between:

- Interest incurred at the contractual rate (translated into the entity's functional currency);
- Interest that would have been incurred on a borrowing with identical terms in the entity's functional currency (local market-related rate had the loan been issued locally); and
- Borrowing costs are reduced by the income earned on funds not utilised.

Refer to note 4 for additional disclosure.

#### 1.12 Foreign currency

Transactions in foreign currencies are translated to the functional currency of the Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gains or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

#### 1.13 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially recorded at fair value and subsequently measured at amortised cost.

#### Notes to the financial statements continued

for the year ended 31 December 2023

#### 2. New standards and interpretations

#### 2.1 Standards and interpretations effective and adopted in the current year

In the current year, the Group has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

# Deferred tax related to assets and liabilities arising from a single transaction: Amendments to IAS 12 Income Taxes

The amendment adds an additional requirement for transactions, which will not give rise to the recognition of a deferred tax asset or liability on initial recognition. Previously, deferred tax would not be recognised on the initial recognition of an asset or liability in a transaction, which is not a business combination and at the time of the transaction affects neither accounting profit or loss. The additional requirement provides that the transaction, at the time of the transaction must not give rise to equal taxable and deductible temporary differences.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The Group has assessed the estimated impact of adopting the standard on 1 January 2023 as follows:

#### Decommissioning provision

The amendment will not have an impact as the gross deferred tax assets and liabilities for the Group are recognised on decommissioning asset and liability, which has been previously recognised under the initial recognition exemption.

#### Lease liability

The amendment will not have an impact on the Group as deferred tax is recognised on lease liabilities and the corresponding right-of-use asset.

#### Disclosure of accounting policies: Amendments to IAS 1 and IFRS Practice Statement 2.

IAS I was amended to require that only material accounting policy information shall be disclosed in the financial statements. The amendment will not result in changes to measurement or recognition of financial statement items, but management will undergo a review of accounting policies to ensure that only material accounting policy information is disclosed.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The amendment did have an impact on the Group's financial statements with only material accounting policies being disclosed.

#### Definition of accounting estimates: Amendments to IAS 8

The definition of accounting estimates was amended so that accounting estimates are now defined as "monetary amounts in financial statements that are subject to measurement uncertainty".

The effective date of the amendment is for years beginning on or after 1 January 2023.

The amendment did not have an impact on the Group's AFS.

#### Classification of Liabilities as Current or Non-Current - Amendment to IAS 1

The amendment changes the requirements to classify a liability as current or non-current. If an entity has the right at the end of the reporting period, to defer settlement of a liability for at least twelve months after the reporting period, then the liability is classified as non-current.

If this right is subject to conditions imposed on the entity, then the right only exists, if, at the end of the reporting period, the entity has complied with those conditions.

In addition, the classification is not affected by the likelihood that the entity will exercise its right to defer settlement. Therefore, if the right exists, the liability is classified as non-current even if management intends or expects to settle the liability within twelve months of the reporting period. Additional disclosures would be required in such circumstances.

The effective date of the amendment is for years beginning on or after 1 January 2023.

The Group has adopted the amendment for the first time in the 2023 financial statements.

The amendment did not have an impact on the Group's AFS.

#### 3. Judgements by Directors and management

#### 3.1 Determination of mineral resource estimates

The Group estimates its mineral resources based on information compiled by Competent Persons on behalf of management. Reserves determined in this way will be used in the calculation of depreciation, amortisation and impairment charges, and for forecasting the timing of the payment of mine closure and environmental rehabilitation obligation. In assessing the life of a mine for accounting purposes, mineral resources are only taken into account where there is a high degree of confidence in economic extraction. There are numerous uncertainties inherent in estimating ore reserves, and assumptions that are valid at the time of estimation may change significantly when new information becomes available. Changes in the forecast prices of commodities, exchange rates, production costs or recovery rates may change the economic status of reserves and may, ultimately, result in reserves being restated. Such changes in reserves could impact depreciation and amortisation rates, asset carrying values and provisions for mine closure and environmental rehabilitation costs

#### 3.2 Mine closure and environmental rehabilitation obligation

Mining and exploration activities are subject to various laws and regulations governing the protection of the environment. Management estimates the expected total expenditure for the rehabilitation and remediation of negative environmental impacts at closure at the end of the life of the mine. The amount recorded for the mine closure and environmental rehabilitation obligation requires management to make estimates, assumptions, and judgements relating to the future. These estimates are based on engineering studies of the work that is required by current environmental legislation. These estimates include the rate at which costs may inflate, the life of mine estimates and discount rates. Refer to note 19.

#### 3.3 Development expenditure

Development activities commence after the commercial viability and technical feasibility of the project is established.

Judgment is applied by management in determining when a project is commercially viable and technically feasible.

The Group considers the following items as pre-requisites prior to concluding on commercial viability:

- All requisite regulatory approvals from government departments in South Africa have been received and are not subject to realistic legal challenges;
- The necessary funding to engage in the construction and development of the project as well as general working capital until the project is cash generative;
- Compliant resource proving the quantity and quality of the project as well as a detailed Mine Plan reflecting that the mine can be developed and will deliver the required return rates; and
- The appropriate skills and resources to develop and operate the project.

In determining the expenses that should be capitalised in relation to the development of the qualifying asset, development expenditure, including indirect costs, are capitalised to the extent that the amounts incurred are directly attributable to the development activities and are necessary to bring the BPM to commercial production.

Any judgements may change as new information becomes available. If, after having commenced the development activity, a judgement is made that a development asset is impaired, the appropriate amount will be written off to profit or loss.

#### 3.4 Review of asset carrying values and impairment

In accordance with our accounting policies, each asset or CGU is evaluated every reporting period to determine whether there are any indications of impairment. If any such indication exists, a formal estimate of the recoverable amount is performed and an impairment loss is recognised to the extent that the carrying amount exceeds the recoverable amount. The recoverable amount of an asset or cash-generating group of assets is measured at the higher of fair value less costs to sell and value in use.

The determination of fair value and value in use requires management to make estimates and assumptions about expected production, commodity prices, reserves, operating costs, closure and rehabilitation costs, and future capital expenditures. The estimates and assumptions are subject to risk and uncertainty; hence there is the possibility that changes in circumstances will alter these projections, which may impact the recoverable amount of the assets. In such circumstances, some or all of the carrying value of the assets may be further impaired or the impairment charge reduced with the impact recorded in profit or loss.

The most significant review relates to the carrying value of the property, plant, and equipment that relates to the BPM. The recoverable amount for this project was determined by using the cash flow approach. The cash flow approach requires determination of the present value of future cash flows over the useful life of the asset.

#### Notes to the financial statements continued

for the year ended 31 December 2023

#### 3. Judgements by Directors and management continued

#### 3.4 Review of asset carrying values and impairment continued

The asset is valued using the free cash flow capitalisation, i.e. the discounted cash flow (DCF) methodology and the weighted average cost of capital (WACC) of the Group as the discount rate.

In determining the future cash flows, management reviewed all the key variables and sources of estimation, which were based on the same principles as those that applied to the consolidated financial statements for the year ended 31 December 2022. Management engaged the services of various professional research and forecasting experts, including that of SFA Oxford Limited regarding projections of supply, demand and real prices for internationally traded commodities and the general economic outlook and specifically South African interest, exchange and inflation rates.

Management concurred with the expert opinions regarding the longer-term positive outlook and improvement in the prices by the time that the BPM starts producing saleable production.

On this basis, the recoverable amount exceeds the carrying amount of the relevant mining assets and management is of the opinion that the assets of the Group are not impaired.

The following economic parameters were assumed for Bakubung:

	2023	2022
US\$ exchange rate (ZAR) short term	17.65 — 18.22	16.05 — 16.50
US\$ exchange rate (ZAR) long term	18.18	16.31
Pt price (US\$/oz) short term	1 032 - 1 632	1012 - 1364
Pt price (US\$/oz) long term	1 685	1 592
Pd price (US\$/oz) short term	832 – 1 124	982 — 1 728
Pd price (US\$/oz) long term	787	775
Rh price (US\$/oz) short term	4 931 — 8 713	11 268 — 12 079
Rh price (US\$/oz) long term	6 739	7 311
Au price (US\$/oz) short term	1 676 – 2 110	1 557 — 1 821
Au price (US\$/oz) long term	1 675	1 595
Weighted average cost of capital (%) (real)	10.19	9.97

- If all assumptions remain unchanged, a 10% decrease in the basket price of commodities will result in
- no impairment;
- If all assumptions remain unchanged, a 10% decrease in the United States dollar to the South African rand will result in no impairment; and
- If all assumptions remain unchanged, a 10% increase in the WACC will result in no impairment.

#### 3.5 Shareholder's contribution

Shareholder loans that were obtained and assessed to have interest rates that were below their market interest rates from Jinchuan Group (Hong Kong) Resources Holdings Limited. The excess above the nominal interest rates for these loans is accounted for as capital contribution.

If a shareholder makes a loan to the investment company at below-market rates and sets repayment terms, the difference between the actual interest rate charged and market-related interest is a part of the investment the shareholder made in the investment company. Due to this, Wesizwe has recognised an equity contribution over the years. This is consistent with the principles set out in the Conceptual Framework, which defines income as "increases in economic benefits during the accounting period in the form of inflows or enhancements of assets or decreases of liabilities that result in increases in equity, other than those relating to contributions from equity participants". If a loan is made by a shareholder to an entity on favourable terms, the substance of the transaction is that the entity has received a contribution from the shareholder to the extent that the cash advanced exceeds the fair value of the entity's financial liability. Under the Framework this contribution is not income. Refer to note 13.

#### 3. Judgements by Directors and management continued

#### 3.6 Impairment of financial assets

The loss allowances for financial assets are based on assumptions about the risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on past history, existing market conditions as well as forward-looking estimates at the end of each reporting period. Refer to note 32.

#### 3.7 Revenue

Company revenue comprises management fees charged to Group companies for services. The timing of the satisfaction of the performance obligation has been deemed to be "over time" given that the customer simultaneously receives and consumes the benefits provided by the Company's employee. No other significant areas of judgement or estimation uncertainty arose in accounting for revenue for the Company.

#### 4. Property, plant and equipment

	Cost R'000	2023 Accumulated depreciation R'000	Carrying value R'000	Cost R'000	2022 Accumulated depreciation R'000	Carrying value R'000

All property, plant and equipment are owned by the Group except for the ROU asset. The Group holds full title of the buildings. The title deeds of all owned buildings are available for inspection at our registered office.

Bakubung has encumbered all its assets in favour of a South African special purpose vehicle (Security SPV) that holds the security for the benefit of the holding company's lender, CDB, and the guarantor, Jinchuan. Wesizwe and Bakubung have agreed to jointly and severally indemnify the Security SPV harmless in respect of claims and losses, which the Security SPV may suffer by reason or in consequence of the Security SPV having issued the debt guarantees. This Security SPV is a wholly owned subsidiary of a trust of which the beneficiaries are the lender and the guarantor. Wesizwe and/or Bakubung do not have any interest, no managerial influence nor are they trustees of the Security SPV.

Mine development assets, mining rights and all plant and equipment associated with mine development assets are not being depreciated as the mine is not yet in production.

The effective interest rate of the loans has been calculated at 13.5% (2022: 4.24%) for the year, taking into account all foreign exchange differences and finance costs incurred. Therefore, only borrowing costs incurred on the loans for the year ended 31 December 2023 have been capitalised to the cost of the asset. R2 478.4 million was capitalised during 2023 (2022: R1 693.7 million), which is included in addition to the mine development assets.

The mining rights are disclosed separately in the property, plant and equipment note, but presented within property, plant and equipment on the statement of financial position. They arose historically from payments made during the exploration and evaluation phase and, consistent with the Group's accounting policy, were transferred to property, plant and equipment once commercial viability had been achieved for the mine to enter into development.

The ROU asset constitutes the mine surface lease of land on which the mine is situated and where the mining and processing activities take place.

#### Notes to the financial statements continued

<sup>(1)</sup> Shareholder loans are payable on demand, subject to the subordination referred to herein, and bear no interest. These loans have been subordinated in favour of external creditors. Wesizwe has no intention to recall the loans to subsidiaries within the next 12 months

Wesizwe has undertaken not to reduce its shareholding in Bakubung, Africa Wide, Wesizwe Properties and Gabonewe and to provide the necessary financial support to meet their obligations as and when they become due until such time as the assets of the companies exceed their liabilities.

The Company uses the general approach to measure the ECLs for all loan receivables. There were no write-offs in the current year for loan receivables to subsidiaries. Refer to note 32.

<sup>(2)</sup> The loan is payable on the same terms and bears interest on the same terms as the loan with CDB and includes all foreign exchange differences related to the loan with CDB. Refer to note 14

<sup>(3)</sup> The loans are payable on the same terms and bears interest on the same terms as the shareholder's loans 1 to 18 from Jinchuan Group (Hong Kong) Resources Limited and includes all foreign exchange differences related to the loan with Jinchuan Group (Hong Kong) Resources Limited. Refer to note 13

<sup>(4)</sup> The loans are short-term loans payable on normal credit terms

Modification gain	215 089	_	215 089	_
Closing balance	1 008 703	422 748	1 008 703	422 748

The Group recognises its shareholder loans initially at fair value. The fair market rate was determined as the incremental borrowing rate. This was determined, among others, by present valuing the contractual cash flows using a fair market interest rate.

An equity injection has been recognised as a result of the below-market interest rate for shareholder loans 1 to 18 from shareholder Jinchuan Group (Hong Kong) Resources Holdings Limited. The excess above the nominal interest rates for these loans is accounted for as capital contribution.

Contractual periods on loans 1 to 7 and loan 10 changed during the year resulting in a modification. This was recognised by recalculating the carrying amount of the loans through discounting the new expected contractual cash flows at the original incremental borrowing rates. These gains are accounted for as equity as this is also a related party.

Total	8 988 133	9 449 707	8 988 133	9 449 707

The Group has secured and utilised a US\$650 million loan. Refer to note 4 regarding the security for the loan. The variable interest rate is determined every six months, in advance, at the ruling "six-month LIBOR rate" plus 3.5%. The term of the loan is 15 years from the date of the first drawdown, i.e. January 2014. No capital repayments were due during the first six years.

Repayments in semi-annual instalments over the last nine years of the loan commence at an amount equal to 0.077% of the outstanding balance at the end of the sixth year, after which every instalment increases until the second last payment amounts to 8.5% of the initial outstanding amount. The last instalment repays the total balance.

The interest expense is payable bi-annually. The interest expense is included in the effective interest rate calculation. Instalment payments started during the financial year ended December 2020, as scheduled, with the final payment planned in 2028.

Refer to note 33 for the fair value of borrowings.

# 15. Lease liability

## **Maturity analysis**

The lease liability is secured by the related underlying assets. The discounted maturity analysis of the lease liability at 31 December 2023 is as follows:

	Within 1 year R'000	Between 1 - 5 years R'000	More than 5 years R'000	Total R'000
GROUP - 2023				
Lease payments	1 479	5 915	31 420	38 814
Finance charges	(1 464)	(5 821)	(23 898)	(31 183)
	15	94	7 522	7 631
GROUP - 2022				
Lease payments	1 479	5 915	32 899	40 293

The Group has unredeemed capital expenditure of R20 734.1 million (2022: R17 968.6 million) and unredeemed exploration expenditure of R4.3 million (2022: R4.3 million) for the year ended 31 December 2023. The unredeemed capital expenditure may be set off against future taxable income.

## 17. Mine closure and environmental rehabilitation obligation

	GRO	OUP
	2023 R'000	2022 R'000
Opening balance	79 642	94 643
Discounting of rehabilitation and closure provision	6 602	11 530
Obligation reduced	(35 908)	(26 531)
Excess of provision on decommissioning asset	(6 183)	_
Closing balance	44 153	79 642

This long-term obligation reflects the net present value of closure, restoration, and environmental rehabilitation costs, (including the dismantling and demolition of infrastructure, removal of residual materials and remediation of disturbed areas) of which cash flows is expended at the end of life of the mine. This estimate is based on the current cost estimate and escalated to the future planned closure date and then discounted at an appropriate rate. The current estimates are based on environmental plans in accordance with current technology, environmental and regulatory requirements and the measurements of an independent professional surveyor.

At the time of establishing the provision, a corresponding asset is recognised that will be depreciated over the future life of the asset to which it relates. The provision is reassessed on an annual basis for changes in cost estimates, discount rates, and escalation rates.

As required by the Department of Mineral Resources and Energy, a deposit of R73.5 million (2022: R73.5 million) is held with a financial institution. Refer to note 10. This investment has been ceded as security in favour of the guarantees, which the bank issued on behalf of the Group. The guarantees have been provided to the Department of Mineral Resources and Energy for the mine closure and environmental rehabilitation.

For purposes of calculating the provision, management has assumed an inflation rate representative of the future cash flows of 5.98% (2022: 7.20%), which is the Consumer Price Index. The discount rate regarded as an appropriate long-term, risk-free rate is 8.67% (2022: 8.75%). The current cost of rehabilitation estimate is R86.8 million (2022: R119.0 million).

### 18. Cash-settled share-based payment liability

The Group operated a cash-settled share-based payment plan that was approved by the Board on recommendation of the Remuneration Committee in 2015. During 2022 the Committee and the Board considered and approved in principle to terminate the scheme with no further allocation of shares as they consider a new bonus policy to replace this one.

The number of participants at 31 December 2023 are one (2022: two).

## Notes to the financial statements continued

for the year ended 31 December 2023

## 18. Cash-settled share-based payment liability continued

Parameters considered during the valuation of the deferred bonus plan:

Valuation date 31 December 2023

Fair value of share price at valuation date R1.594

Type of settlement Cash

During the year ended 31 December 2023, the Company recognised a decrease in liability of R1.7 million (2022: R3.8 million increase). This is as a result of the vested shares paid out.

Wesizwe and its subsidiaries are subject to direct tax in the South African jurisdiction. The income tax and annual assessments are subject to examination within the prescribed periods by the South African Revenue Services. The Group has made a provision for the 2018 and 2019 tax assessment from SARS (of R121 million) based on the letter of findings dated 30 September 2022. An adjustment of R121 million, inclusive of penalties and interest, was made at 31 December 2022 to reflect this liability until the matter is finalised. Management has since obtained external legal and tax advice to inform the significant judgement required in interpreting the relevant tax legislature. As at 31 December 2023, the tax matter was still ongoing.

# 26. Earnings per share

	GROUP	
	2023	2022
Basic earnings per share		
Basic earnings per share is determined by dividing profit/(loss) attributable to the ordinary equity holders of the parent by the weighted average number of ordinary shares in issue during the year.		
The basis of calculation of basic loss per share is:		
Attributable loss to ordinary shareholders (R'000)	(25 200)	(134 100)
Weighted average number of ordinary shares in issue	1 627 827 058	1 627 827 058
Basic loss per share (cents)	(1.55)	(8.24)

Diluted loss per share is equal to basic loss per share as there were no dilutive instruments.

	Gross 2023	Net of tax 2023	Gross 2022	Net of tax 2022
Headline earnings and diluted headline earnings per share				
The basis of calculation of headline loss and diluted headline loss per share is:				
Attributable loss to ordinary shareholders (R'000)		(25 200)		(134 100)
Adjustment for:		3 066		_
Loss on disposal of financial asset (R'000)	3 066	3 066	_	_
Headline loss (R'000)		(22 134)		(134 100)
Weighted average number of ordinary shares in issue	1	627 827 058		1 627 827 058
Headline loss per share (cents)		(1.36)		(8.24)
Diluted headline loss per share (cents)		(1.36)		(8.24)

### Notes to the financial statements continued

for the year ended 31 December 2023

### 31. Financial instruments and risk management continued

### Financial risk management

#### Overview

This note presents information about the Group's exposure to financial instruments and the Group's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these financial statements.

The Group is exposed to the following risks from its use of financial instruments:

- Credit risk;
- · Liquidity risk; and
- Market risk (currency risk, interest rate risk and price risk).

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Audit and Risk Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly by management to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit and Risk Committee also oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit and Risk Committee is assisted in the oversight role at operations level by internal audit. Internal audit undertakes regular and *ad hoc* reviews of risk management controls and procedures, the results of which are reported to the Audit and Risk Committee.

#### Capital management

The Board defines capital as equity issued to shareholders. There were no changes in the capital management strategies from the prior year. There are no external imposed capital requirements. The Group's debt-equity ratio is currently 305% (2022: 494%). The Company has loan covenants in that the net worth of the Group will not be less than R2 billion and that the financial indebtedness of the Group shall not exceed US\$830 million. The Group is managing the capital of the Group to ensure that neither of these loan covenants are defaulted on.

#### Credit risk

Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. The Group's counterparty exposure arises from investments in money market instruments, and the risk is limited by dealing with reputable financial institutions.

#### (i) Other receivables, cash and cash equivalents and loans to subsidiaries

The Group and Company have exposure to other receivables of R52.5 million and R0.2 million, respectively (2022: R1.9 million and R0.5 million, respectively). The Group and Company have exposure to cash and cash equivalents of R227.9 million and R31.9 million, respectively (2022: R342.6 million and R220.2 million, respectively). The Company has exposure to loans to subsidiaries of R22 063 million (2022: R18 407 million). This is the maximum exposure of credit risk. Refer to note 32 with respect to the impairment of loans to subsidiaries. The credit risk has been assessed as insignificant.

Exposure to credit risk is limited by only investing in liquid securities and only with counterparties that have a favourable credit rating. Cash and cash equivalents and restricted cash are invested with the following institutions at 31 December 2023:

	CREDIT	CREDIT RATING		OUP	COMPANY

## 31. Financial instruments and risk management continued

#### Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to manage this risk is to ensure, as far as possible, that it will always have sufficient cash resources to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group will continue developing the mine while revenue from operations is only expected from 2024 onwards. Various funding options for the balance required from 2024 onwards are being considered. The maturity profile of contractual cash flows of non-derivative financial liabilities are presented in the following table. The cash flows are undiscounted contractual amounts.

		Interest	6 months	6 to 12	1 to 2	2 to 5	More than	Takal

## 31. Financial instruments and risk management continued

#### Market risk

Market risk is the risk of changes in foreign currency rates, and interest rates, which can affect the Group's income or the value of its holdings in financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

At the current stage of the project development, management is focused on the currency rate risks relating to US dollar-denominated loans and the imported content of the project. Various mitigating options have been identified with the assistance of specialists and will be implemented when required. Once the Group begins to earn US dollar-denominated revenue, this will provide a natural hedge and losses on the restatement of the US dollar loan should be met with improved net South African rand income if the rand weakens, and vice versa if the rand strengthens.

#### Interest rate risk

The Group manages its interest rate risk by entering into prime-linked investments.

The primary goal of the Group's investment strategy is to maximise investment returns on temporary surplus cash. Management is assisted by external advisers in this regard. Management assessed the market risk as low.

#### (i) Interest rate sensitivity analysis

The following sensitivity analysis has been prepared using a sensitivity rate, which is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. All other variables remain constant. The sensitivity analysis includes only financial instruments exposed to interest rate risk, which were recognised at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

A decrease of 50 basis points in interest rates on favourable bank balances, including restricted cash of R227.9 million (2022: R342.6 million) for the Group will decrease equity and profit or loss by R2.5 million (2022: R1.9 million on a 50 basis points on interest decrease). An increase of 50 basis points would have the equal but opposite effect. A decrease of 50 basis points in interest rates on favourable bank balances, including restricted cash of R31.9 million (2022: R220.2 million) for the Company will decrease equity and profit or loss by R0.4 million (2022: R0.3 million on a 50 basis points on interest decrease). An increase of 50 basis points would have the equal but opposite effect. This analysis assumes all other variables remain constant.

A decrease of 50 basis points on the interest rates on the variable interest rate borrowings will increase equity and profit or loss by R1 384.0 million (2022: R73.7 million on a 50 basis points decrease). An increase of 50 basis points will decrease equity and profit or loss by R1 187 million (2022: R74.2 million on a 50 basis points increase). This analysis assumes all other variables remain constant.

#### Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rate. The Group is exposed to currency risk on borrowings and bank accounts that are denominated in US dollar.

The carrying amounts of the Group's foreign currency-denominated monetary assets and liabilities at the reporting date are as follows:

	2023	2022	2023	2022
	US dollar	US dollar	Converted	Converted
	exposure	exposure	exposure	exposure
GROUP AND COMPANY	US\$'000	US\$'000	R'000	R'000
Financial assets				
Bank account denominated in foreign currency	_	10 000	-	172 583
Financial liabilities				
Shareholder's loans	575 889	396 413	10 528 285	6 737 889
Interest-bearing borrowings	491 644	555 076	8 988 133	9 449 707
Exchange rates at year-end			2023	2022
ZAR/US\$			18.2818	16.995

### Notes to the financial statements continued

for the year ended 31 December 2023

## 31. Financial instruments and risk management continued

#### Currency risk continued

#### (i) Foreign currency sensitivity analysis

The following information presents the sensitivity of the Group to an increase or decrease in the respective currencies it is exposed to. The sensitivity rate is the rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency-denominated amounts and adjusts their translation at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

A weakening of 10% in the foreign exchange rate will decrease equity and profit or loss by R1 952.0 million (2022: R1 901.4 million) on the foreign cash balances, interest-bearing borrowings and shareholder's loans. A strengthening of 10% in the exchange rate would have an equal but opposite effect. This analysis assumes all other variables remain constant.

### 32. Impairment of financial assets

#### Loans receivable from subsidiaries

The Company has material loans receivable from subsidiaries. Refer to note 7.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Especially the following indicators are incorporated:

- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;
- · Actual or expected significant changes in the operating results of the borrower; and
- Significant increases in credit risk on other financial instruments of the same borrower.

Regardless of the analysis above, a significant increase in credit risk is presumed if a borrower is more than 60 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments when they fall due.

The Company uses three categories for loans, which reflect their credit risk and how the loan loss provision is determined for each of those categories:

Category provision	Category definition	Basis for recognition of expected credit loss
Stage 1 – Performing	Borrowers have a low risk of default and a strong capacity to meet contractual cash flows	12-month expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Stage 2 – Underperforming	Loans for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due	Lifetime expected losses
Stage 3 – Non-performing	Interest and/or principal repayments are 60 days past due	Lifetime expected losses

Over the term of the loans, the Company accounts for its credit risk by appropriately providing for ECLs on a timely basis. In calculating the expected credit loss rates, the Company considers historical loss rates for each borrower and adjusts for forward-looking macroeconomic data.

The interest-bearing loan receivable from Bakubung is considered to be a performing loan as Bakubung has a low risk of default and strong capacity to meet contractual cash flows. As such, any loss allowance recognised would be based on 12-month expected losses. The expected credit loss calculated for this loan was found to be insignificant.

ECL was calculated using a combination of probability of default (PD), loss given default (LGD) and exposure at default (EAD) as follows:

ECL = PD \* LGD \* EAD

#### Where:

PD represents the likelihood over a specified period that a borrower will not be able to make scheduled payments. A PD of 30.16% was used based on market information adjusted for factors specific to the borrower.

## 32. Impairment of financial assets continued

#### Loans receivable from subsidiaries continued

LGD represents the amount of money that the Company would lose on default by the borrower. Considerations included the costs that would be incurred to recover amounts owed as well as the collateral held and the time that would be taken to realise such security. Given that the mine is held as security, the LGD was found to be negligible.

EAD represents the amount by which the Company is exposed to loss, as a result of the default on the loan, which our calculation determined to be the carrying value of the loan.

The Company considered impairment for other loans receivable from subsidiaries that are all unsecured, interest–free and repayable on demand. All recovery scenarios indicated that the ECLs from these loans would be immaterial.

#### Other financial instruments

The Group and Company have restricted cash and cash and cash equivalents. Immaterial ECLs were estimated for these balances.

For the portion of other receivables that meet the definition of financial instruments under IFRS 9, the ECLs are immaterial at both Group and Company levels.

### Notes to the financial statements continued

for the year ended 31 December 2023

#### 33. Fair value information continued

#### Fair value hierarchy

The levels are classified as follows:

Level 1 - fair value is based on quoted prices in active markets for identical financial assets or liabilities.

Level 2 - fair value is determined using directly observable inputs other than level 1 inputs.

Level 3 – fair value is determined on inputs not based on observable market data.

There were no transfers between any of the levels during the year.

Cash and cash equivalent, other receivables, trade payables, and current portion of interest-bearing borrowings and loans from subsidiaries are short-term in nature, therefore their carrying amounts reasonably approximate fair value

Long-term interest-bearing borrowings have terms that are market-related and therefore their carrying amounts reasonably approximate fair value. Refer to note 14.

Other financial assets relate to investment in equity instruments, their fair value is measured using level 1 inputs obtained directly from JSE. Refer to note 7.

The fair value of shareholder loans is measured using level 3 inputs. A discounted cash flow is used to determine the fair values of shareholder loan. The valuation method considers the present value of expected payments, discounted at a risk-adjusted discount rate.

### 34. Events after reporting date

The Group is in negotiations with the CCMA regarding Section 189a that will affect the retrenchment of staff members.

Mr Yongxiang Huang was appointed as a Non-executive Director on 7 March 2024.

## 35. Going concern

The Group's cash resources at the reporting date of R227.9 million (2022: R342.6 million) are not sufficient, based on current budgets, to conduct operations and complete the development of the BPM Project. The Group's current liabilities at the reporting date, which includes shareholder's loans of R3 017.4 million (2022: R5 634.3 million), exceed the current assets by R3.5 billion (2022: R5.6 billion).

These conditions indicate that a material uncertainty exists, which may cast significant doubt as to the ability of the Company and its subsidiaries to continue as a going concern in that they may be unable to realise their assets and discharge their liabilities in the normal course of business.

The ability of the Group and Company to continue as a going concern is dependent on the support of the majority shareholder and the majority shareholder not calling on the current shareholder's loans. The shareholder has supported the shortfall to date and has provided a letter of comfort supporting any shortfall and guaranteed repayment of the CDB loan going forward. Management has made certain judgements in considering whether the planned mitigating actions are sufficient to conclude that the going concern assumption is appropriate.

Based on the above, the Directors have concluded that it is appropriate to prepare the financial statements on a going concern basis.

# 36. Shareholder analysis
